

# Face-Mix Mixer

# Haarup Face-Mix Mixer

## Haarup raise the standard again

For production of face-mix concrete for paving stones, Haarup has introduced a face-mix concrete series of face-mix mixers in the sizes 300 litres, 500 litres and 750 litres. The face-mix concrete series include some uniquely developed modifications for face-mix concrete, which ensure demanding face-mix concrete mixes of highest quality in an economically efficient way with Haarup's known mixer quality.

### New cover lids in the face-mix mixer

The mixer cover is smooth on the inside to reduce the build-up of materials.

The suspension arms of the gearbox are designed for inlets so that access to service and cleaning is the best possible.

### New mixing tools for face-mix concrete

The VM face-mix mixer is equipped with a special spider with 3 mixing arms for intensive mix of face-mix concrete.

Extra thin steel side scraper with a new design to optimise the production of face-mix concrete.

Special shovels with a selfcleaning effect which minimise the build-up of materials on the surface.

**8** Years  
Warranty

Special water batching for face-mix concrete

Water batching takes place through the mixing pan so that the upper part remains dry. Hereby a quickly and homogeneously mixed face-mix concrete is also obtained.

The water nozzles of the face-mix mixer can also be equipped with specially developed air/water valves for efficient cleaning of the nozzles with air.

## Your partner for the concrete industry - From ideas to conclusions

Haarup have the equipment, know-how and expertise required by the concrete industry. This ensures an optimum solution and the necessary security when investing. Haarup are your natural choice when investing in all types of batching and mixing plants.
